

Holocene.
Intimate illuminations from Wästberg.

No. 2: David Chipperfield
Instructions.

Care and maintenance

This product is made of solid brass. Brass will naturally darken over time and fingerprints, grease, water etcetera may leave stains on the surface. If you wish to keep the high polished surface, you will need to polish the brass regularly with a brass polish. Brass should never be placed in a dishwasher.

Use a 2 mm Ø wick for best result. Recommended functional height of the wick is 5 mm. Use only with high quality lamp oil.

Warning

Keep this oil lamp out of reach of children 1–3 years old, both in use and when stored.

In case of small children, just a sip of lamp oil – or even sucking the wick – may lead to life-threatening lung damage.

If lamp oil is swallowed, do not induce vomiting. Seek medical advice immediately or contact a poison information centre and show these warnings.
