

Holocene.
Intimate illuminations from Wästberg.

No. 4: John Pawson
Instructions.

Care and maintenance

This product is made of aluminium and stainless steel. The parts will darken naturally over time and fingerprints, grease, water, etc. may leave stains on the surface. If you wish to keep the high polished surfaces, wash with mild soap or detergent, then rinse in clean water and wipe dry with a soft cloth. The product should never be placed in a dishwasher.

Use a 4 mm Ø wick for best result. The quality of wicks differs, it is recommended to use the wick provided with the lantern. Spare wicks can be bought at holocenefromwastberg.com. Recommended functional height of the wick is 3 mm. Use only high quality clear paraffin oil for oil lamps. Wipe the lamp clean of possible oil spill between uses.

Warning

Keep this oil lamp out of reach of children 1–3 years old, both in use and when stored.

In case of small children, just a sip of lamp oil – or even sucking the wick – may lead to life-threatening lung damage.

If lamp oil is swallowed, do not induce vomiting. Seek medical advice immediately or contact a poison information centre and show these warnings.

If the burner is over-filled or the burner lid is not properly screwed on to the burner base, a minor oil leak may occur. If the lamp is placed on a fragile surface, we recommend to use a trivet.

No. 4: John Pawson

1. All included parts. Lantern (a), burner lid (b), burner cup (c).

2. Unscrew the burner (b+c) from the lantern (a), then unscrew the burner lid (b) from the burner cup (c). Fill the burner cup with oil (max 70 ml).

3. Screw the burner lid on to the burner cup. Wipe clean of possible oil spill. Make sure the lid is completely tightened to avoid leakage. Then screw the burner (b+c) in to the lantern.

Recommended functional height of the wick is 3 mm. The length affects the size of the flame and the burning time.
